Representing the Merchants' Association

OSGOOD PUTNAM, *Vice-Chairman* JESSICA B. PEIXOTTO
Representing the Associated Charities.

JOSEPH C. ASTREDO REV. D. O. CROWLEY
Representing Charities at Large

KATHARINE C. FELTON, *Secretary*
1500 Jackson Street: telephone, Franklin 854
To whom all communications should be addressed.

The Charities' Endorsement Committee is designed to protect the community from fraudulent and inefficient enterprises soliciting in the name of charity, and to set a standard of efficiency below which no endorsed charity shall fall.

* The Committee stands ready to investigate all charitable organizations applying to it for endorsement and to issue its official card to such as are doing honest and intelligent work.

It asks the charity-giving public to co-operate in making this plan effective by refusing to give to charities not presenting the Endorsement Card of the Committee.

HANDBOOK OF CHARITIES*

This book is designed to be a guide to those who desire to give to charity. In it will be found a classified list of the accredited organizations of the city, with a brief account of their scope, purpose, and plans for future development.

The Charities' Endorsement Committee intends to issue this book annually, adding in future editions an outline of the charitable situation in the city, with a statement showing in what departments of charitable work there is special need for further development and expansion, and in what departments the financial support is inadequate and needs to be augmented. This statement will be made in the interest of no one charity, but of the general charity work of the city.

*This book is not a directory of charities. The Associated Charities has in its office a complete list of the charities of the city and is familiar with their rules and requirements. Persons desiring to get into communication with any of the charities are therefore advised to inquire at the office of the Associated Charities.

INTRODUCTION

The Charities' Endorsement Committee, in this, its first handbook published since the fire, presents to the public a list of the established charities of the city, with a brief description of their work.

During the fall and winter of 1908 the Endorsement Committee was repeatedly asked for a list of charities in good standing, and merchants constantly complained that they were besieged by solicitors about whom they knew nothing. It was impossible, however, at that time, to reorganize the Endorsement Committee for active service. Both its constituent societies—the Merchants' Association and the Associated Charities—were absorbed in other work forced upon them as a result of the fire. In consequence, the Committee was not able to resume its ordinary duties until the spring of 1909.

It was decided that the first and most important service the Committee could render the general public was to publish at once a list of the established charities of the city, so that the merchants could discriminate against fraudulent and inefficient organizations and in this way prevent them from securing a firm footing in this community. This decision to publish the list at once, however, meant that this Committee could not investigate personally, or through its own representatives, all the charities. To do this would have required months of detailed work. The Committee has, however, investigated all organizations about whose standing it had reason to believe there was any question, and its book contains only charities under the active control of well-known and responsible people who are working in perfect good faith. The list, therefore, is a safe guide and affords merchants an adequate protection against fraud.

In many departments of charity work the Committee would like to find a higher standard of efficiency, but to make the attainment of such a standard the condition of its endorsement at this time would be most unreasonable. For many of the charities are still suffering the loss of plant and income, and their directors deserve only credit for the courage and energy they have displayed in re-establishing their work and adapting it to new conditions.

The Associated Charities is the central agency for the charities of San Francisco. Its main departments are:

1. APPLICATION AND INVESTIGATION BUREAU

To this department, societies and individuals may send those who ask for assistance. The Bureau commands the services of experienced agents who devote their time to making a careful study of the circumstances of each person referred to them in order to determine: First, whether assistance of any sort is really needed; and secondly, if such assistance is needed, how it can be most effectively given.

Whenever possible, some plan is made to restore the person or family to a position of independence. In carrying out this plan, the Associated Charities calls into service the particular agencies whose help is needed, thus bringing to the assistance of any case the charitable resources of the community.

2. CIVIC RELIEF BUREAU

When adequate relief cannot be procured from other sources, the need is met directly and fully by the Associated Charities. Since 1907 the organization has been the general relief bureau of the city, and has been provided with money by the Relief Corporation. In 1908, \$88,000.00 was spent in direct relief to the poor.

During the coming winter, however, the Associated Charities must again depend upon the local public for a large part of its support. With the closest economy it is estimated that not less than \$30,000 will be needed for relief purposes from October, 1909, to October, 1910.

3. REGISTRATION BUREAU

For the use of those engaged in charitable work, the Associated Charities keeps a record of all cases applying to its office or reported by any co-operating society.

4. INVESTIGATING AGENCY FOR THE CHARITIES' ENDORSEMENT COMMITTEE

The office force of the Associated Charities is the investigating agency for the Charities' Endorsement Committee; and the Associated Charities has assumed all expenses incident to this department of work.

5. EMPLOYMENT AGENCY

An Employment Secretary devotes her time to securing employment for women who have children dependent upon them and for other persons who are physically handicapped.

6. DEPARTMENT OF NURSING AND MEDICAL TREATMENT

In this department two trained nurses are supported by the Crocker and the Hearst funds. The office of the Associated Charities is their headquarters, and they devote their time to visiting such of the destitute sick as are brought to their notice through the office.

7. DEPARTMENT OF LEGISLATION AND LAW

This department was established in 1902 and is in charge of a special committee of the Central Council. It is the purpose of this committee to keep in touch with the charitable situation in California so as to be ready to work in favor of needed legislation and to oppose the passage of ill considered and vicious measures.

8. CHILDREN'S AGENCY

The Children's Agency is divided into:—

(a) HOME-PLACING DEPARTMENT

Through which any children's institution in good standing may have its wards placed in private homes throughout the State; may have all applications for children carefully investigated; the offered homes visited and reported on; and, after the children are placed, may have them supervised and frequently visited so long as the institution retains its control of and its responsibility for the child.

The Home-Placing Department of the Agency is the official representative of the Boys and Girls Aid Society, the Associated Charities of San Francisco, California Girls' Training Home, Florence Crittenton Home of San Francisco, San Francisco Ladies' Protection and Relief Society, San Francisco Nursery for Homeless Children, the San Francisco Foundling Asylum, West Oakland Home, Church Home for Boys, Youths' Directory, Infants' Shelter, Fred Finch Orphanage, Ladies' Relief Society of Oakland, California Society for the Prevention of Cruelty to Children and the Associated Charities of Oakland.

There are 212 children now under the supervision of the visiting agent.

(b) BOARDING-OUT DEPARTMENT

The purpose of this department is to board in carefully selected homes abandoned babies, and other dependent children committed

by the Juvenile Court, because they are in need of more individual attention than can be given by the ordinary institution.

The Agency pays \$12.50 a month for the board of its children and in addition, supplies clothing and medical care: \$11.00 of this amount is allowed by the County for each committed child. There are at present 320 children under the supervision of this Department.

FINANCIAL CONDITION

Since the fire the Associated Charities has made no direct appeal to the public for financial support. During this period it has been the agent of the Relief Corporation and directly supplied with funds to meet necessary expenses and the general needs for relief. This support, however, will soon be materially reduced and the Associated Charities will be again dependent upon voluntary subscriptions for a large part of its support.

It is estimated that for all departments of its work, there will be required not less than \$50,000.00. Of this, at least \$15,000.00 must be raised during the coming year from donations and subscriptions.

M. J. White, Secretary.....	11 Jones St.,	" Market 1871
Geo. A. Newhall, Treasurer.....	114 Battery St.,	" Kearny 1886

OBJECT

To secure the enforcement of the laws of the State against cruelty to children.

During the year 1908, 1525 complaints were received involving 3100 children. 1618 children were cared for in various ways. The Society contributes towards the support of the Children's Agency, the services of which it uses in placing its wards in free homes and providing for their subsequent supervision.

FINANCIAL NEEDS

Last year, \$2400 was received from donations, subscriptions, etc. At least \$8,000 should be collected from these sources during the coming year, if the society is to do efficiently the much larger work that has come to it since the earthquake, without, at the same time, drawing too heavily on its small reserve fund.

THE CATHOLIC HUMANE BUREAU

LOCATION:—1028 Market Street.

TELEPHONE:—Market 1529

OFFICERS.

Rev. J. B. Hannigan.....	Director
Mr. James P. Skelly.....	General Registrar
Miss M. L. Sweeney.....	Field Worker
Miss Amy Hart.....	Visiting Nurse

OBJECT

The care and protection of foundlings, dependent and neglected children, and wayward boys and girls.

Rescue work among young people of both sexes.

The Bureau began its work on September 20, 1907, and since then has operated under the auspices of the St. Vincent de Paul Society. With the exception of money secured from the County, through commitments in the Juvenile Court, the finances of the Bureau are part of the general finances of the St. Vincent de Paul Society. The work is under the general supervision of the Roman Catholic Archbishop of San Francisco.

It is expected that the work of the Bureau will be taken over, in the immediate future, by the Catholic Extension Society, under the workings of which it will constitute a separate department and have a governing body of its own.

A summary of the work of the Bureau, up to September 1, 1909, shows:

Number of cases handled	218
Number of children involved.....	456
Number of children committed to St. Vincent de Paul Society and boarded in private families.....	145
Number committed, through Bureau, to institutions.....	96
Number placed in institutions	58
Number left with parents, on probation.....	35

Mr. Chandler may be seen at the city office, 1217 Sacramento St., on Wednesdays of each week. All applications for the admission of children should be addressed to him at San Mateo.

OBJECT

The care and education of orphan, half-orphan and abandoned boys between the ages of four and fourteen.

Average number of children, 170; per capita cost, \$12.17 per month.

FUTURE PLANS

Plans are now being completed for the establishment of a manual training and trades department. These contemplate printing, carpenter and blacksmith shops and a brush making department. All of these are to be established immediately.

The Armitage is affiliated with the Church Home for working boys in San Francisco. This home is soon to be rebuilt and will then be ready to receive boys from the Orphanage who are old enough to go to work, but are without suitable homes of their own. Through this arrangement, the Institution will be able to fulfill its obligation to its wards and to see that they are not left without adequate supervision at an age when they need it most.

FINANCIAL NEEDS

At the time of the earthquake the Armitage Orphanage was housed in temporary buildings; the old institution had been burned down a short time before and the new Crocker Memorial Home was under construction. This Home was completely wrecked by the earthquake, but it has been rebuilt and the children are now well housed.

During the last two years, however, it has been necessary to spend several thousand dollars in repairing the temporary buildings to adapt them to the immediate needs of the home. This expenditure

has considerably reduced the reserve fund and makes the Institution more than ordinarily dependent upon its current income.

On the basis of last year's expenditures, the Institution will require \$20,000.00 to meet its current expenses for the coming year. Of this sum, \$6,500.00 must be raised from donations, subscriptions and legacies, an increase of \$5,100.00* received from these sources during 1908.

Dudley C. Bates, Treasurer.....	516 Kohl Bldg., " Kearny	1857
SUPERINTENDENT: Geo. C. Turner, 460 Baker St.		

OBJECT

To maintain a non-sectarian home and training school for wayward boys and also a boarding home for working boys, where they are cared for after securing positions and while they are learning trades or business occupations. Homes are also secured in the country for homeless and dependent children. The boarding department is called the Charles R. Bishop Annex. Total number of boys cared for in year 1907-1908, 323. Thirty-one boys were placed in approved family homes and thirty-five were transferred to the Charles R. Bishop Annex.

A successful summer camp was maintained, the boys' earnings amounting to \$4,100.

The Annex is full to overflowing and there is a long waiting list. When money is available, greater accommodations should be provided.

FINANCIAL NEEDS

The operating expenses of the home are greater now than ever before. This is due in part to the increase in cost of many staple commodities; in part to the fact that the general standard of efficiency has been raised. On the other hand, the current income has been materially reduced by a falling off in subscriptions and by a reduction in the amount paid by the County for the care of committed boys. The result is an increasing discrepancy between current income and current expenses and a greater dependence on bequests.

On the basis of last year's expenditures the institution will require \$30,000 for current expenses during the coming year; \$8,000.00 of this sum must be obtained from bequests, subscriptions, current donations, etc., if the reserve fund is not to be drawn upon. In 1908, \$3250.00 was received from current donations and subscriptions.

*The grant of \$5,000.00 from the Red Cross is not included under the regular donations for the year.

GOLDEN GATE ORPHANAGE AND CHILDREN'S INDUSTRIAL FARM

Under the auspices of the Salvation Army.

LOCATION:—Lytton Springs, Sonoma County, California.

Superintendents, Major and Mrs. C. W. Bourne.

OBJECT

To give to a certain number of dependent and neglected children from the cities of the State the advantages of country life, to train the older boys in farming, dairying, poultry raising, and the girls in all lines of domestic work, so that when they leave the Home they may be capable of self-support. All the farm work is done under direction by the older boys, and a good deal of the house work by the older girls, who are paid for their services.

At present there are about 20 children, ranging from two to sixteen years of age. The per capita cost is \$12.00 a month.

FINANCIAL CONDITION

The expenses of maintenance are about \$26,000.00 a year. Of this sum, \$20,000.00 in round numbers, is received from State and County aid, board of children, sale of farm produce and contributions from the Central Office in Chicago, leaving \$6,000.00 to be raised from the Bay district in the form of donations and subscriptions.

There is also a mortgage on the place of \$25,000.00, on which interest is being paid, and the management is therefore very desirous of reducing the amount as quickly as possible.

Contributions to the Orphanage should be made directly to Major Bourne, or his authorized solicitor, as the Farm, although under the auspices of the Salvation Army, collects directly for its own support.

OBJECT:

To care for the younger children of working mothers. \$8.00 per month is charged for board.

The Institution is now caring for about 52 children. Of this number, 14 are under one year of age and 16 are between the ages of one and three.

FINANCIAL CONDITION

Expenses for 1909 will probably be considerably heavier than during the previous year, as the nursery department has been greatly enlarged and its maintenance is relatively more expensive than any other department.

Assuming an expenditure of \$9,000.00, at least \$4,500.00 should be given in the form of current donations, subscriptions or bequests in order to insure adequate support of the Institution.

Membership dues are \$5.00 per year.

OBJECT

To care for orphan, half-orphan and abandoned children who are left helpless by their parents or guardians, and for the children of depraved parents who are unfit and unable to care for them.

Average number of children, 70.

FINANCIAL NEEDS

The Institution is supported by State aid, board paid for children and donations. The current income from donations and subscriptions should be materially increased.

The Directors of the McKinley Orphanage are very desirous of completing the purchase of a house and lot now occupied by the Institution.

MT. ST. JOSEPH'S INFANT ORPHAN ASYLUM

LOCATION:—South San Francisco, Butchertown 23.

Under the auspices of the Catholic Church and conducted by the Sisters of Charity.

OBJECT

For the care of foundlings, orphans and half-orphans, and neglected children of both sexes from infancy to six years of age. There are, at the present time, 430 children under the care of the Sisters.

FINANCIAL

The Asylum is supported by State and County aid, board paid for children by relatives and friends and by donations and subscriptions.

Funds are urgently needed for a new building, as the one now in use is not large enough to accommodate the children. A larger income is also needed, as it would permit the Sisters to board in private homes all the very young babies in their charge.

The expenditure last year was \$36,582.00.

Average number of children, 200; per capita monthly cost, \$18.41.

FINANCIAL CONDITION

During the year (September, 1907, to September, 1908,) \$33,000.00 was received by the Home from donations, subscriptions and bequests. The deficit during the same period amounted to \$13,300.00. The Orphanage has, in late years, been drawing heavily upon its invested capital for current expenses. If this is not to continue, it must receive from the public, in donations, bequests, etc., an income of not less than \$46,000.00 per year.

OBJECT

For the support and education of dependent and neglected children.

It is the intention ultimately to make the teaching of trades an important feature of the work.

Average number of children, 120. Per capita cost. \$7.60 per month.

FINANCIAL CONDITION

The Institution is supported by State aid, board paid by parents and other relatives, and by donations, subscriptions and bequests.

In 1908, \$2,630.00, in round numbers, was received from the three last mentioned sources. In order to make needed improvements and to establish a manual training department, from \$2000.00 to \$3000.00 per year additional income is needed.

ROMAN CATHOLIC ORPHAN ASYLUM

Under the auspices of the Catholic Church and in charge of the Sisters of Charity.

OBJECT:

For the care of orphan, half-orphan and dependent girls between the ages of six and fourteen. There are 400 children in the Home, divided into groups and bands. Each band is in charge of a particular Sister, with her assistants.

At fourteen the girls who desire and are fitted to receive a technical education are transferred to the Technical School, where they are taught to be skilled dressmakers and milliners. Girls not adapted to these trades and without suitable homes of their own are often kept in the Orphan Asylum after the age of fourteen and until they can be taught to be self-supporting.

FINANCIAL

The Asylum is supported by State and County aid, board paid for the children by parents and other relatives, and by donations, subscriptions and bequests.

OBJECT

To provide a home for orphans, half-orphans and other children who need protection and care.

Girls are admitted between the ages of three and ten; boys, between the ages of three and eight.

The average number of children during 1908 was 119; per capita \$20.10 per month.

Homes in carefully selected private families are found for the children as fast as circumstances will permit. For the investigation and subsequent supervision of such homes, the Institution employs the Children's Agency of the Associated Charities.

OBJECT

This Institution has three branches of work:

1st.—A Maternity Hospital which provides excellent care for women of moderate means.

2nd.—A Training-school for obstetric nurses.

3rd.—A Department for the Care of Abandoned Babies.

In November, 1908, the Directors decided to board out, in family homes, all the babies in their care. The Foundling Asylum building was closed and a Receiving Cottage built and equipped. In this cottage there are two trained nurses who care for any babies left at the Institution until they can be placed in foster homes. From November 15th, when this change of system was inaugurated, to April 15th, there was but one death and in this case the child was in a dying condition when received.

Through the Children's Agency the babies are placed for adoption as soon as possible. All the money received from the State is paid directly to foster mothers.

FINANCIAL NEEDS

The Babies' Department of the Institution needs \$3,000.00 to serve as a Revolving Fund, as the foster mothers must be paid

monthly, while the State pays but twice a year. In addition to this Revolving Fund there must be obtained from subscriptions and current donations a yearly income of \$900.00. This sum is needed to supplement the amount given by the State in order to supply the babies with clothing, medicines and additional care in case of illness. (For needs of Lying-in Hospital, see Hospital Section.)

OBJECT

To care and provide for orphans, half-orphans and homeless children.

Sixty-three children have been received into the institution during the past year; age of admission from infancy to twelve years of age. The Home can accommodate from seven to eight very young babies and has room for twenty-five children of kindergarten age.

FINANCIAL CONDITION

The institution has no endowment fund. It is supported by State aid, by board paid for children by relatives and friends and by donations, subscriptions and bequests.

On the basis of last year's expenditure, \$8,000.00 will be required during the coming year for current expenses. Of this sum, \$4,000.00 in round numbers must be raised from current donations, subscriptions, legacies, etc., \$2,000.00 more than was raised from these sources during the year 1908.

The Protestant Orphan Asylum was the first institution organized in San Francisco for the care of orphan children.

Established in 1851, its many years of faithful public service have made it one of the best known institutions in the State, as well as in the city of San Francisco.

It receives and cares for orphan and half-orphan children between the ages of two and fourteen.

There are 139 children now in the Home.

OBJECT

A Home and School for the care and education of orphans, half-orphans and abandoned children under the age of 14 years. Also for boys under 14 years committed by the Judges of the Juvenile Courts either for dependency or for minor delinquencies.

FINANCIAL NEEDS

Much less has been contributed by the relatives of the children since the fire and there has been a falling off in contributions from the public; at the same time, the rise in prices has materially increased the expense of the institution, making the strictest economy necessary. An earnest effort is to be made in the near future to introduce manual training and the elements of several useful trades. For this purpose and to meet the running expenses of the institution, an increased income of from \$5,000.00 to \$10,000.00 per year is needed.

OBJECT

Outdoor treatment of convalescent women and children and the establishment of a vacation Home for self-supporting young women. This Home is conducted on a co-operative basis, the actual cost of living only being charged. Home is open from May to November.

FINANCIAL CONDITION

The receipts from all sources in 1908 were \$2,916.00 and the disbursements, \$2,799.00. \$1,000.00 was a special gift for furnishing cottage.

Donations of the same amount, during the coming year, will provide for the maintenance and extension of this much needed work.

At an expense of only \$12.00, St. Dorothy's Rest will care for a sick child for a month.

SUBDIVISION VI

HOMES FOR WORKING BOYS

Charles R. Bishop's Annex.

Church Home for Boys.

CHARLES R. BISHOP'S ANNEX

LOCATION:—460 Baker Street.

TELEPHONE:—West 1244

OBJECT

A boarding Home for working boys, where they are cared for after securing positions and while they are learning trades or business occupations.

For further information see Boys and Girls Aid Society of California.

CHURCH HOME FOR BOYS

Undenominational in its work, but under the auspices of the Protestant Episcopal Church.

LOCATION:—The first of several Homes to be built will be located at Twenty-fifth and Potrero.

OFFICERS.

Rt. Rev. Wm. Ford Nichols, President.....	1217 Sacramento Street
Rev. John Bakewell, President of the Board.....	c/o Trinity Church, Oakland
Mr. James R. Pringle, Secretary.....	Merchants Exchange Building
Mrs. Griffith, Treasurer	Ross, Marin County, Cal.

OBJECT

To care for homeless working boys, providing them with proper care and environment at a nominal cost; primarily to help those who are without friends and who must depend on their own efforts to make their way in the world, i. e., dependent children. Through the boys living in the Home to establish an interest in the various shops that other boys, not living at the Home, may be placed at work, and to develop an employment center for the benefit of the working boy. It is now believed that with the Home completed in all details and free of debt, it can be made practically self-supporting. The amount of money on hand is sufficient to purchase the lot and erect the Home, though not to furnish it,—furnishings to cost about \$1,500.00. No plan has as yet been advanced to secure the needed money for equipment, because of the belief that the building should be started as an evidence of good faith before said sum was asked for.

OBJECT

“To assist sick or destitute British subjects or persons of British origin, resident or transient in California.”

FINANCIAL NEEDS

On the basis of last year's expenditure \$3,045 will be required for the relief work of 1909. Of this sum, \$2,000.00 should be secured from donations and membership dues if the reserve fund is not to be drawn upon; this means an increase of \$600 in the receipts from these sources in 1908.

Mrs. M. J. Smith, Grand Sect'y and Treas....555 Pacific Bldg., Tel. Douglas 3024

OBJECT

1.—To give material aid to the poor, irrespective of creed or nationality.

2.—To establish and maintain a home for working girls.

3.—To care for dependent and delinquent Catholic children. To make it possible for this work to be done efficiently, the Society has been represented in the Juvenile Court by two Probation Officers, whose salaries it paid until this expense was assumed by the County.

The Catholic Ladies' Aid Society is a State organization with local branches in many of the parishes.

FINANCIAL NEEDS

The Society is supported by membership dues, donations and entertainments.

In 1908, \$11,708.00 was spent in material relief. In addition to this, St. Margaret's Club, a home for working girls, was established at 1541 California Street.

OBJECT

1st.—To furnish relief to those in need, irrespective of creed or nationality.

2d.—To keep in touch, through the visits of its members, with such families as need its constant care.

Investigations of all cases not known to the Society are made through the Associated Charities.

Special attention is given to providing adequate care in cases of illness; this often includes hospital treatment and the services of a trained nurse.

FINANCIAL NEEDS

The Society is supported by entertainments, donations and membership dues.

On the basis of last year's expenditure about \$5,000.00 will be needed for relief purposes in 1909.

OBJECT

Relief to French persons, principally old people of both sexes, women with children, orphans, etc.

During the year 1908 relief was given to 671 people and 382 days of free hospital care were furnished.

FINANCIAL CONDITION

The Society is supported by donations, bequests and membership dues. Since the earthquake the number of subscribing members has been materially diminished, and had it not been for the gift from the Relief Fund the Society would have been forced to draw upon its reserve fund of \$5,000.00 for current expenses.

On the basis of last year's expenditures \$2,600.00 will be required to meet the needs of the coming year, an increase of \$900.00 in donations and membership dues over the income received from these sources during 1908.

DEPARTMENTS

1.—A Mutual Benefit Association;—any one, whether a German or not, may become a member of the Association on the payment of \$1.25 per month, and in case of illness is entitled to free treatment as a ward patient in the German Hospital, or to free medical service at his home. (Germans only have the privilege of voting.)

2.—A bureau for the relief of Germans in distress.

The expenditures for relief during 1908-09 were \$15,279.50.

3.—A general hospital open to all physicians in good standing. The new building cost \$700,000.00 and there is still a debt of \$520,000.00.

Two beds have been endowed from relief funds. Other endowments are desired in order to extend free work. The Hospital permits patients in free beds to be attended, if they so desire, by their own physicians.

OBJECT

"To relieve Israelites in poverty and distress."

FINANCIAL CONDITION

The money needed for relief is collected individually by the four constituent Societies, but is dispersed through the Central Board.

For the year ending February, 1909, the expenditures of the Board were \$60,635.08. The receipts have not increased in proportion to the expenditures since the earthquake and financial depression, and, as a result, the constituent Societies are drawing heavily upon their reserve funds. The largest of these, the Eureka Benevolent Association, collected in the year ending December, 1908, \$13,945.00, and contributed to the Central Board, for relief purposes, \$34,954.00, making it necessary to draw \$20,000.00 in round numbers from its reserve fund.

OBJECTS

First.—To provide medical and surgical aid for children, this being the main charity. No deserving case is refused as long as a bed is vacant. The "Little Jim" Ward has 25 beds for incurable cases. It is a Hospital, not a home for crippled children, and is intended for those whose pain and suffering can be relieved by medical care and attention.

Second.—To provide medical and surgical aid for sick women. The adult cases admitted are of three classes: (1) Those destitute and unable to pay anything; (2) Those able to pay hospital charges only; (3) Those able to pay for all services; this is a source of revenue to the Hospital.

Third.—To educate nurses, giving a three years' course of reading, lectures, and practical nursing.

During the year 1908, the Hospital gave 6,418 days' absolutely free treatment; 11,691 days' treatment at less than full rates and approximately 10,000 days to children at the nominal charge of \$1.00 a day.

FINANCIAL CONDITION

On the basis of last year's expenditure it is estimated that the Hospital will require \$80,000 for current expenses and ordinary repairs. Receipts from pay patients may be estimated at \$50,000.00, leaving \$30,000.00 to be obtained from current donations and bequests.

The building fund now contains \$150,000.00 and it is estimated that the new building will cost at least \$250,000.00 exclusive of equipment. The Hospital must therefore ask the public to be as generous to it during the coming year as it has been during the past.

There are at present three endowed beds, admittance to which is open to acute cases suitable for teaching purposes and subject to the general rules of admission to the Hospital.

Ambulatory cases are given medical and surgical service at the Cooper Medical College Dispensary free of charge. When hospital treatment is necessary, Dispensary patients are admitted to Lane Hospital at reduced rates.

FINANCIAL CONDITION

In 1907 there was received, exclusive of the donation from the Red Cross, \$5,432.00 in donations, subscriptions and membership dues. On the same basis of expenditure, an increase, in round numbers, of \$2,800.00 in the income from these sources will be needed for the coming year if the Hospital is to meet its running expenses without drawing upon its reserve fund or bequests for current expenses.

In 1907, before the endowment of free beds, 392 days of free treatment were given.

FINANCIAL CONDITION

The Hospital's new brick building, known as the "Gibbs Annex," was completely wrecked by the earthquake. There was, at that time, a mortgage on this building of \$40,000. This has since been reduced to \$25,000.00. The Hospital has in its Sinking and Endowment Funds approximately \$20,000.00; in addition to this there is a fund for Reconstruction, amounting to \$7,851.00.

The current expenses and cost of repairs for 1908 exceeded the receipts from pay patients by \$2,500.00. If the free work is to be extended, therefore, the expenses must be met from donations, subscriptions, or an endowment fund. \$10,000.00 will endow a bed in perpetuity.

OBJECT

To help needy, erring and unfortunate women and girls. Single girls, pregnant for the first time, are received, sheltered and cared for during confinement.

At the present time there are 17 women in the Home and 30 babies. It is the policy of the Florence Crittenton Home to encourage the

mother to recognize her obligation toward her baby. With this end in view she is urged to stay in the Home for several months after the birth of the child, when an effort is made to find her a place where she will be allowed to have her baby with her. If this is impossible, the child is often kept at the Home, the mother paying for its board.

The Florence Crittenton Home makes a moderate charge for the care given. The circumstances governing the individual case are taken into account in determining the amount asked and the length of time allowed for payment, and no girl is refused admission simply because she is without money.

There is urgent need for a thoroughly equipped department of domestic science, where, under the direction of a competent teacher, training can be given in the various departments of housework. The skill so acquired will enable the women, on leaving the Home, to secure well paid situations and so place them in position to provide adequately for their children.

FINANCIAL CONDITION

Since the fire the Home has lost most of its income from donations and subscriptions. At least \$4,500.00 is required for current expenses during the coming year. Not more than \$1,500.00 of this sum can be collected from patients, leaving a balance of \$3,000.00 to be met from subscriptions and donations, an increase of \$2,600.00 over the amount received from these sources during 1908.

To give a home to aged and disabled Jews who are without means of self-support.

No entrance fee or contribution is required.

At present there are 23 inmates in the Home.

FINANCIAL CONDITION

On the basis of last year's expenditures \$6,000.00 will be needed in bequests, current donations and subscriptions for the support of the institution during the coming year.

HOME FOR THE AGED OF THE LITTLE SISTERS OF THE POOR

(INCORPORATED)

Under the auspices of the Catholic Church.
LOCATION:—Lake Street and Fourth Avenue.

OBJECT

For the care of the aged and infirm poor.

In the Home for the Aged, conducted by the Little Sisters of the Poor, there are about three hundred inmates. Both men and women are accepted and no entrance fee is charged.

The Home is supported entirely by voluntary subscriptions. The rules of the Order forbid the Sisters from receiving State aid, or from having an assured income.

Food is solicited from day to day.

The work of the Home is done by the Sisters and by such old persons as are strong and well enough to do it. No salaried persons are employed.

OBJECTS OF THE ASSOCIATION

The objects of the Association are to establish and maintain a charitable institution for the permanent care and maintenance of poor, aged or infirm women, members of the Episcopal Church, who may be, from any cause, incapacitated from taking care of themselves, and such others as the Ladies' Board of Managers may think entitled to its benefits; also for the temporary residence of Christian women.

ADMISSION

An admission fee of \$75.00 is required in advance from each applicant who desires to become a permanent inmate, and entitles her to three months' board and lodging, pending final admission. The fee for permanent admission is \$1,000.00, and must be deposited in cash with the application, subject to be refunded if the applicant does not become a permanent inmate. The management finds as a result of many years' experience that in addition to the use of the building,

there is actually expended in cash for the board and care of each inmate an average sum of \$2,880.00. Thus, while the inmate contributes \$1,075.00, the Home supplies each inmate free rent and a living for which it pays in money \$2,880.00. No one admitted under sixty years of age.

Application for admission should be made to Mrs. J. Goddard Clark, 2710 Filbert Street, San Francisco, or to Mrs. R. B. Sanchez at the Home.

Average number of inmates in the Home during the year 1908 was 33.

The Institution has a reserve fund to guarantee its ability to meet its obligations on life contracts, \$5,000.00 in interest-bearing bonds, and real estate and buildings worth \$30,000.00 in actual use by the Home.

FINANCIAL NEEDS

The Home has been given an adjoining lot for an infirmary for the care of its own sick. It requires about \$25,000.00 for the building, and \$50,000.00 for its endowment to meet the expenses of running it.

In addition to the reserve fund of \$5,000.00, the Home has \$1,000.00 as the beginning of an endowment fund, and \$15,000.00 for the endowment of three rooms. Of these three funds, the income only can be used. \$1,500.00 is required for shingling and painting the exterior of the present Home.

For the year April, 1908, to April, 1909, the current expenses were, in round numbers, \$7,000.00. The receipts from life members, board of temporary inmates, donations and subscriptions and the interest on the permanent funds fell short of this amount by \$1,600.00. It is, therefore, necessary that the income of the Home be supplemented by at least this amount if it is to meet its ordinary expenses. Heretofore the Home has met any such shortage by drawing on moneys received from legacies. All such moneys were exhausted after the earthquake, and, owing to local financial conditions, no legacies are now being received. For the first time in over twenty years, the books were closed this year with bills for current expenses unpaid and no money with which to pay them.

The two departments are

1. A General Hospital.
2. Home for the Aged and Infirm of both sexes.

At present there are about seventy-five inmates and the Home is taxed to its utmost capacity, so that no persons can be received except as vacancies occur through death. A number of the inmates have been

there many years and were received at the beginning without any entrance fee.

All profits from the Hospital are used to support the Home.

There is no regular fixed entrance fee to the Home and no age limit. Wherever possible, the Sisters charge \$1,500.00 for private rooms, and at least \$500.00 for ward care.

OBJECT

The purpose of the organization is the care of persons permanently disabled, except those suffering from dementia or contagious disease.

In 1908, the King's Daughters' Home for Incurables, an institution that had existed in San Francisco for sixteen years, found itself financially unable to maintain its work and to care for its 32 life inmates. The Relief Committee, therefore, was appealed to and by it suitable arrangements were made for the permanent care, either by relatives or in institutions, of 17 of the former residents of the Home. There remained, however, 15 patients to be provided for, whose needs could not be suitably met by any of the existing institutions. The persons composing the present Board of Directors, therefore, decided to establish a new Home for Incurables and the Relief Committee arranged with them for the permanent care of the 15 old people still to be provided for. The plan commended itself to all interested in charity work, because an institution caring for those suffering from chronic illness was absolutely needed in San Francisco.

FINANCIAL CONDITION

In 1908 the Home for Incurables received \$15,000.00 from the Relief Corporation and in return accepted the life care of 15 patients, the former inmates of the King's Daughters' Home. Ultimately, these patients will cost much more than this amount and the additional sum must be raised from time to time through subscriptions. At present, and until the finances are on a firmer basis, the institution is receiving no new life members, but is accepting patients on a monthly basis, charging from \$40.00 up, according to the disease and the kind of care

required. This charge is beyond the means of many in need of permanent care and the institution should receive from the public an income sufficiently large to enable it to reduce this rate whenever necessary.

To extend its work and to meet the obligations already assumed, there should be an income from donations and subscriptions of at least \$8,000.00 a year. Of this amount, not more than \$1,000.00 is now assured.

To be eligible for admission to the Home an applicant must be 65 years of age, five years a resident of California, and must pay an admission fee of \$1,000.00.

In return for the fee of \$1,000.00 the institution stands ready to guarantee a home and good care to the person admitted for the remainder of her life. The Home is well situated and can accommodate a larger number of inmates.

The average number of inmates at the present time is 19.

FINANCIAL CONDITION

The Institution is supported from fees paid by life members, from legacies and donations, and from the interest on its endowment fund of \$60,000.00. Annual expenditure, \$4,000.00.

*The Association has already carried out all the objects above enumerated except the establishment of an incubator station and milk laboratory.

The Society is just completing its building at 1547 Jackson Street. Here the permanent offices of the Society will be located and the clinic and dispensary for the treatment of tubercular patients. The clinicians have been appointed by the medical schools and medical centers of the city, most of which are now represented in which is really a polyclinic for the treatment of tuberculosis.

Permanent committees for legislative, municipal and educational work and for the control of the dispensary have already been organized and are actively at work. In the near future the Society is to organize a relief committee to raise money so that adequate relief may be given to tubercular patients unable to care for themselves. A carefully considered plan, arranging for close co-operation between the Tuberculosis Society and the Associated Charities, has already been drawn up and accepted by both organizations.

FINANCIAL CONDITION

The Society is supported entirely by voluntary subscriptions and donations and by membership dues. (The membership fee is \$1.00 a year.)

For relief purposes it is estimated that at least \$10,000.00 will be needed; in addition to this, the Society will require not less than \$5,000.00 for its educational and nursing work during the year 1909-1910.

OBJECT

To maintain a free kindergarten in an industrial neighborhood in San Francisco.

The Kindergarten has been organized for seventeen years and is now an important factor in the life of the neighborhood. It has an enrollment of 60 children and an average attendance of 40.

An active Mothers' Club has been established under its auspices.

FINANCIAL CONDITION

The Kindergarten has not yet recovered from its losses occasioned by the failure of the California Safe Deposit and Trust Company.

Its annual expenses are \$1,100.00 and its income considerably short of this amount.

FINANCIAL CONDITION

The reserve fund, mentioned in the financial report, includes the insurance collected on its old building, which was burned.

On the basis of last year's expenditure \$3,000.00 will be needed to conduct two kindergartens during the coming year.

OBJECT

The establishment and maintenance of free Kindergartens in San Francisco and environs; the sustaining of a free Normal Training School for Kindergartners and the further promotion of the work among needy and neglected children.

Since the first fifteen kindergartens have been established. Of these, ten have permanent sources of income, while five are dependent upon current donations and subscriptions.

FINANCIAL CONDITION

There has been an almost total loss of regular subscriptions to Kindergartens not permanently supported. During 1906-1907 the income of the Association was supplemented by a grant from the Relief Corporation. In 1908, \$5,000.00 was drawn from the reserve fund for current expenses.

If the Association is not to exhaust, in the near future, its reserve fund, it must raise, from subscriptions and donations, at least \$7,000.00 a year. This will provide for the maintenance of the Normal School Department and Kindergartens for which there is no permanent support. During 1908 the receipts from donations, subscriptions and bequests were only \$1,505.00, and an increase of \$5,495.00 in the income from these sources is therefore needed during the year 1909.

OBJECT

In the two schools established by the Society, 120 children are enrolled. It is planned to open a third kindergarten and a day home in the near future.

FINANCIAL CONDITION

While the books show a larger sum of money to the account of the Society than before the fire, this is due to the gift from the Relief Committee and a few small bequests. The amount received from regular subscriptions is one-third less than before the fire.

On the basis of last year's expenditures, \$3,078.00 will be needed for the coming year. To meet this amount from current income will mean an increase in subscriptions of \$1,125.00.

"The Settlement Home, where the residents live their active daily lives, sends nurses out to care for the needy sick, doing all that is necessary towards providing skilled care, hospital or dispensary treatment, as well as keeping the sanitary condition of the neighborhood as wholesome as possible for the sake of the entire community.

The equipment of the Nurses' Settlement represents an outlay of \$15,000.00. The Settlement, besides its dispensary, has a Club House, where are conducted classes and clubs for the instruction of those who need help, and here also meet the two principal civic organizations of the Potrero—the Woman's Club and the Men's Promotion Association.

The nurses on duty at the Settlement are professionally trained nurses and at present are hoping to bring about the co-operation of some of the hospital training schools towards giving their nurses a course in social service and district work.

The work established at the Potrero is intelligent because of the intimacy of the residents with the actual conditions and needs of their neighbors, both individually and as a social unit."

FINANCIAL CONDITION

The financial situation of the Settlement is serious. The work itself grows constantly in advance of its income. For a year an effort has been made to raise \$300 more a month for the direct support of needed nurses, but so far has not been successful.

Although in rude, temporary quarters at Treat Avenue, the Settlement Association is doing more work and meeting greater current expenses than before the fire. As the subscriptions and donations have not increased in proportion to the work, the Settlement has been rapidly using up the Rehabilitation money. The average monthly receipts during the past year have been \$157.99 and the monthly expense, \$294.42, leaving a monthly deficit of \$136.43. Total number of cases (six years).....	3647
Number of persons attending clubs and classes weekly.....	275

The Society has added to former duties and activities that of landlord and rent collector to eight families living in cottages at corner of Filbert and Stockton Streets, on land leased by the Association.

An effort will be made to interest capital to purchase land and to erect proper homes and tenements, the Association to act as agent for such properties. Other lines of work could be increased if income were larger. There is imperative need for the salary of another nurse.

The Hill Farm, a home in the country for convalescent women and children, is maintained under the auspices of the Telegraph Hill Association. It is open from May to November of each year.

FINANCIAL CONDITION

Before the fire the Association rented houses for its clubs and dispensary, but it now owns its land and building, with an outstanding debt of \$8,500.00 with interest at 5%.

Its income is practically the same as before the fire. The Association has no endowment fund and is dependent entirely upon donations and subscriptions. To carry on its work on the same basis as last year it will require an annual income of at least \$5,000.00, an increase of \$1,500.00 over the receipts from such sources in 1908.

In addition to this, the Association will need at least \$3,500.00 for the support of Hill Farm. There is no regular income and no endowment for this special work; both are urgently needed.

The People's Place has not been included in the foregoing list, but according to information received from members of its Board, the Committee has been led to believe that the work is now in a formative period, and it is hoped that in another year it will be well established.

A Social Settlement maintaining Club work for adults and children.

The work is supported by donations, subscriptions and regular monthly contributions.

It is the plan of the Directors "to greatly extend and improve the institutional work as heretofore carried on and also to add distinct and important units of usefulness of such character and form as not to duplicate other benevolent activities in that part of the city."

OBJECT

To provide a home-like, attractive place, where working-women, stenographers, clerks, bookkeepers, etc., can secure board and lodging at cost. At present about sixty can be accommodated.

FINANCIAL NEEDS

After the building belonging to the Association was burned, it was decided best to sell the lot. The money from this sale and from the insurance on the building is now being used as a working capital. When all or most of the rooms are occupied the Home can be maintained on a self-supporting basis.

OBJECT

"Protecting, sheltering and up-lifting the young women of San Francisco, assisting them to become self-supporting and affording facilities for mental and moral improvement."

The Association has four main departments:

1. A Home where board and lodging are furnished to working girls at cost price. There is room in the Home Building for 115 young women, and this accommodation is constantly taxed to its utmost.

2. A Traveler's Aid. Three secretaries are employed whose duty it is to meet incoming trains and boats, so that helpless young girls who are strangers in the city may be protected.

3. An Educational Department. This is the center for classes in millinery, dressmaking and other branches for the benefit of working women in San Francisco. This Department is in close co-operation with many of the large stores and factories.

4. A Cafeteria and Rest Room conducted at 239 Geary Street.

FINANCIAL CONDITION

The present income from subscriptions, donations and the board of inmates practically equals the expenditures. To develop and extend the work as the Directors plan to do will require, during the coming year, an increase of \$3,000.00 over the receipts of 1908.

The Association has a debt of \$6,000.00, incurred in the purchase of the Educational Building.

OBJECT

To maintain a free reading room and library for the blind; to provide for those who have been educated at the State institution at Berkeley or elsewhere literature especially prepared for them; to provide a special reader, who shall read aloud the newspapers and other matter not adapted to the use of the blind.

This Society regards itself as an auxiliary to the Public Library.

FINANCIAL

The Society is supported entirely by private subscription.

About \$900.00 is needed for the coming year to pay rent, the salary of the superintendent, and to provide additional literature for the blind, which, of course, is especially prepared and is more expensive than the common.

Mr. Irvin C. Foster, Assistant Secretary	2514 Sixteenth St., " Market	1702

OBJECT

The Prevention of Cruelty to Animals.

The Society conducts the City Pound in a most excellent manner, and maintains an ambulance service for the removal of sick or injured horses, dogs, cats and other animals.

The city pays for the maintenance of the Pound. All other departments are supported by donations, subscriptions and membership fees.

The Society receives one-half the fines of all prosecutions which it institutes.

An increased income is urgently needed in order that the work may be developed in the following directions:

1. The enlargement of the patrol force.
2. The erection and maintenance of additional water troughs.
3. The revival of the "Band of Mercy Department."
